Summary:

I don't expect you to accept my apology, this is my last message here.

Well, this is it for fanfictions. What I've written, what I've said, it's disgusting. I'm going to leave them up, I won't avoid further criticism by removing the evidence. I shouldn't have started in the first place, but I won't make excuses here. There are none.

What I wrote came from a place of frustration and a feeling of "revenge" over any slight negative comment to my character. It's just simply not okay what I've done. To the people who read about themselves being violated or violating when they themselves are innocent, I apologize. To the people who know these people and were angered, you were justified in doing so. I'm going to abandon this account, but will leave these posts, not so I can bask in the glory of having these public, but so that you can see what I did wrong. And to the people who asked me to write these or otherwise supported them, I won't tell you to get help, but what we did was wrong.

If you want one featuring you in it gone, please leave a comment on this post. It's anonymous, just choose a name and leave it, the comments will only be seen by me. Once again, I'm so sorry what I've put you through.
